OBJECTIVE

B.Sc. Computer Science graduate interested in web development and software development. I have experience working with HTML, CSS, Tailwind CSS, JavaScript, React, PHP, and MySQL through my academic projects and practice. I enjoy creating simple, responsive websites and learning new technologies. I am looking for an opportunity to start my career as a Full Stack Web Developer, gain practical experience, and improve my skills by working on real-world projects.

EDUCATION

SRM Trichy Arts and Science College, Trichy
Bachelor of Science (B.Sc.) in Computer Science
CGPA: 8.20

2023 – 2026

INTERNSHIP EXPERIENCE

ILIFE Technologies - Web Development Internship

May 2025 - June 2025

- Worked on front-end web development tasks using HTML, CSS, and JavaScript.

Greensoft Groups - Java Internship

May 2024 - June 2024

- Learned core Java programming concepts and applied them to small practice projects.

TECHNICAL SKILLS

Languages: Java

Web Technologies: HTML, CSS, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, PHP

Database: MySQL, MongoDB

Tools & Platforms: GitHub

CERTIFICATIONS

- Object Oriented Programming Using Python - **Infosys Springboard**

- Generative AI with IBM Cloud - **IBM**

- MongoDB Basics for Students - **MongoDB**

- Active Participation in Project Work - Demonstrated teamwork, creativity, and social responsibility

PROJECTS

Attendance Management System (Final Year Project)

Web-based application to manage student records, mark attendance, generate reports, and send acknowledgements.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

Students Management System

Web-based application to manage and organize student records with add, update, delete, and search functionalities.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

Staff Leave Management System

Web-based application that enables staff to apply for leave online while allowing administrators to review, approve, reject, and manage leave requests efficiently.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

BLOG

Developed a web application using React and Node.js to create, manage, and display blog posts. Added features for users to view and interact with blog content, with MongoDB used to store and manage the data.

Tech Stack: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB
